● OPEN TO NEW WORK

## 01 Profile

*“I like building useful software with care.”*

Software engineer and entrepreneur focused on dependable full-stack products — from early planning to production and ongoing improvement. I take products from rough ideas to stable releases and support developer communities along the way.

### BUILD END TO END

From rough ideas to stable, shipped releases.

### KEEP SYSTEMS CLEAR

Architecture and code teams can maintain.

### CONTRIBUTE LOCALLY

Supporting dev communities any way I can.

## 02 Core Skills

### </> ENGINEERING

Full-stack development

System architecture

Reliable infrastructure

### 📦 STACK

React

Next.js

Django

PostgreSQL

Docker

AWS

### ✦ PRACTICE

AI-assisted workflows

Project management

UX & Product thinking

### 🕹 OFF THE KEYBOARD

Gym \* Archery \* Chess \* Guitar \*  
Coffee \* Arts

## 03 Experience

2025 – Present

### CEO & Founder

📧 Let's Tech Club

Founded and run a tech education club focused on practical training for aspiring developers.

FOUNDER

2025 – Present

### Senior Software Engineer

OSBAY

Build MarTech tools for lead research, market analysis, and conversion workflows, with a focus on reliability.

ENGINEERING

2024 – 2025

### Tech Team Lead

📺 Hysan Education

Led the development team to build a school management system for one of Myanmar's leading English language schools.
